

Rocking incubator

Product Description

MO-RK is a mode of incubator equipped with a rocking shaker inside. It provides a uniform temperature environment for mixing samples in different containers on rocking platform. This mode also has the features of other incubators.

Features

- Microprocessor control
- Digital temperature and speed control
- Temperature calibration function
- Excellent temperature uniformity
- Rocking shaking function
- Timer
- Friendly operation design concept
- Larger LCD display
- Stackability
- Heavy duty 10mm acrylic cover provides visibility and safety

Cat. No. :MO-RK

Specification

- Controller: Digital microprocessor controller for temperature, time, and speed
- Display: 128 x 64 dot matrix display
- Temperature Calibration: Yes
- Chamber Temperature: Ambient to 85°C
- Temperature Increase: 0.1°C
- Temperature Calibration: Yes
- Temperature Uniformity in working area @ 37°C: $\pm 0.2^{\circ}\text{C}$
- Temperature Accuracy @ 37°C: $\pm 0.2^{\circ}\text{C}$
- Operating temperature: Ambient to 40°C
- Stackability: Yes
- Inner dimension: 340 x 260 x 250mm (W x L x H)
- Overall dimension: 360 x 440 x 430mm (W x L x H)
- Construction: Painted iron metal
- Weight: approx. 25.0kg
- Rated Voltages: 110V or 220V
- Rocking shaker: 0 - 100rpm
- Rocking platform: 270 x 200mm (W x D), stack 1 ea of additional platform available

Incubator with hybridization rotisserie and rocking shaker

Product Description

MO-RK-HY is a mode combined of MO-RK and a rotisserie. It provides a uniform temperature environment plus a rotisserie for holding different hybridization tubes. In practice, it either provides rocking function or rotisserie orbit. All the features of MO-RK and alternative function of rotisserie orbit make a better flexibility on the market.

Features

- Microprocessor control
- Digital temperature and speed control
- Temperature calibration function
- Excellent temperature uniformity
- Either rocking function or rotisserie orbit
- Timer
- Friendly operation design concept
- Larger LCD display
- Stackability
- Heavy duty 10mm acrylic cover provides visibility and safety

Cat. No. :MO-RK-HY

Specification

- Rotisserie speed / Inc: 0 - 100rpm / 1rpm

Ordering Information

MO-RK	Rocking incubator
MO-RK-HY	Incubator with hybridization rotisserie and rocking shaker
MO-HY-8RT	35mm tube rotisserie for 8 tubes
MO-HY-16RT	50ml conical tube rotisserie for 16 tubes
MO-HY-24RT	15ml conical tube rotisserie for 24 tubes
MO-P2720	Platform for shaker
MO-FH-250	250ml flask holder
MO-FH-500	500ml flask holder
MO-BT40X150	Glass bottle 40 x 150mm
MO-BT40X200	Glass bottle 40 x 200mm
MO-BT40X300	Glass bottle 40 x 300mm
